CLIMATE CHANGE POLICY

Purpose

Recognising the ever-increasing global threat posed by climate change, Henderson Land Development Company Limited (the “Company”) and its subsidiaries (collectively the “Group”) are committed to reducing our carbon footprint by implementing effective strategies and initiatives throughout our development projects and operations.

Commitment

The Group’s policy is to:

1. comply with or exceed the applicable legal and regulatory requirements, adopt applicable local and industry best practices on climate mitigation, adaption and resilience, in new developments and existing properties under our management;
2. adopt local and international green building standards to minimise carbon emission and energy use in new developments;
3. support the application of renewable energy and reduce energy consumption from less sustainable sources;
4. encourage our employees, customers, tenants, suppliers, consultants, contractors, business partners and other stakeholders, to reduce carbon emissions and energy consumption in their daily operations;
5. incorporate climate change considerations in its procurement process and encourage the use of low carbon, low embodied-energy and energy efficient products and materials;
6. identify climate change risks and opportunities, and understand the impact of climate change on our business activities, building operations and the society;
7. encourage innovation and application of new technologies for long-term carbon emission reduction in project planning, construction and building management;
8. create an appropriate decision-making and communication process to address climate change risks as part of the corporate risk management process;
9. identify, document and assess the climate-related risks and ways to manage the risks; and
10. establish risk management plan to tackle the crisis arising from extreme weather events due to climate change.

Review of this Policy

The Company will review this Policy from time to time as appropriate, and in any event, once every three years.
